OBJECTIVE

Passionate Computer Science student with expertise in AI, Machine Learning, and Full-Stack Development. Strong problem-solving skills with hands-on experience in developing AI-driven applications and scalable web solutions. Seeking an opportunity to apply technical knowledge in an innovative environment.

EDUCATION

Gyan ganga institute of Technology and sciences <i>Bachelor of Technology in Computer Science, CGPA - 7.07</i>	Jabalpur, MP Oct. 2021 – June 2025
St.Gabriel's Senior Secondary School <i>Class XII, Percentage- 75.33</i>	Jabalpur, MP Mar. 2020 – May 2021
St.Gabriel's Senior Secondary School <i>Class X, Percentage- 89.33</i>	Jabalpur, MP Mar. 2018 – May 2019

PROJECTS

AI-Driven plant disease prediction system <i>Python, TensorFlow, Keras, Streamlit, ML</i>	June 2024 – Present
- Built a web & mobile app using Python, TensorFlow, and Streamlit for real-time plant disease detection. - Integrated a CNN model achieving 95+ percent accuracy in identifying plant diseases from images. - Provided automated treatment recommendations with at least 3 preventive measures per disease. - Added an expert consultation feature to assist farmers with tailored guidance.	
Wanderlust App <i>Mongo Atlas, Render, MongoDB, Tailwind, Bootstrap, Nodejs, Express, React</i>	May 2023 – May 2024
- Developed a full-stack travel app using MERN stack (MongoDB, Express, React, Node.js). - Implemented secure user authentication, allowing sign-ups, logins, and review submissions. - Designed an interactive UI with Tailwind CSS & Bootstrap for seamless user experience. - Integrated MongoDB Atlas for real-time database storage to handle user-generated content.	
Personal Finance Management System	May 2024 – Present
- Built a financial tracking web app using MERN stack to manage income, expenses, and savings. - Implemented dynamic budgeting, expense categorization, and Chart.js-based visual analytics. - Secured the platform with user authentication / data encryption for privacy. - Deployed on Render, ensuring real-time financial insights with a responsive UI.	

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, C
Frameworks: HTML, CSS, React.js, Node.js, Streamlit
Tools And platform: Git, VS Code, Render, Jupyter Notebook, SQL Workbench
Libraries: pandas, NumPy, Matplotlib
Core Subjects:: Data Structures, Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks

ACHIEVEMENTS

- Solved 100+ coding problems across LeetCode, CodeChef, and Coding Ninjas.
- Participated in SIH Internal Hackathons at College (Twice)
- AWS Cloud Foundation Certification – 2024
